On a level
Still roll deep on a level
I represent the best MCs on a level
I don't know what they told you, but I'm not a mook
You can never be like Wiley, on a level
Give me trophies of all-time medals
Cause every time I wanna put pressure on a levels
I say no till I'm living off shekels
So tell a sound boy you can't play with the levels
On a level

Steam whistle Take it off your head like a big Scud missile My style's after Izzle My donny got caught on the road with twenty jizzle Ain't heard a word from him, he gone mizzle Can't be a bear if you don't really wanna grizzle Shit's gonna happen if you're keeping it rizzle Yes, talk is cheap like Lidl Our manna old school like piggy in the middle I'm in season, I'm in season, I got riddim For the holiday season I got gyaldem who said they wanna start breedin' And it's a hype, cause that's the life I've been leadin' And I'm eediat sometimes but I'm realist Cause I'm the [?], like I'm on the C-list I ain't breddin', that's the way my whole team is In the corner of the dance standing where the G's is

I haven't written for a bit Because I've been chillin' out, missing on the grid High grade got man livin' in a mist Vodka and lemonade, sippin' till I piss Manna big fish up in the game, no sprats House on the beach, no hoods, no hats And we're swimmin' in the sea with the prawns and the crabs This type of life's all good, no bad I feel so glad, I'm free, alive and kicking For years I've been kicking up a dust and winning For years I've been picking up a mic and spitting Telling everybody how my whole team's living Telling everybody how the whole scene's wavy Got the sick spitters in training Just like the army or navy Hailed 'em up for all the bravery It was the London streets that made me

I'm levellin', I'm level in
The price of the house here's stash treblin'
People wanna go to the hot spot and rave
If they ain't my friend then I can't get 'em in
I came through murkin' sidewinder sets
Said I'm gonna work so I find the cheques
Now I'm tied in, and the money flies in
Tell a business team I'd like to invest
See it's all fun and games till you end up broke
I don't want my career to end up a joke
On a good day you'll be making paper

On a bad one you'll be looking for hope So if you really want my advice then take it Try not to spend until you've made it Just live within your means innit I don't need to front cause I've seen it
