

Name won't die out  
I proved my point at the try-outs  
Can't sell things for the wrong price  
Wanna own stuff, no buy-outs  
Had a flow for the longest  
Had bars for the longest  
Other dons wonder why they won't last so long  
It's cause they ain't on this

I'm on tings, ring my phone, no long ting  
Could've been the right or the wrong ting  
Make a big song ting  
Everybody sing-along ting  
Hold tight my gang, though, sing-along kings  
I bring along kings  
They bring along other sing-along kings  
I've shown you already what a string of luck brings  
Don't matter about your upbringing  
Man are still winning, on this ting every day though  
Songs don't drop everyday, they're getting made though  
Ain't on the radio much, I'm getting played though  
No, I ain't new in the game, I'm getting paid dough  
Top grime dons are the livest  
All the fans come through and decide this  
History's written, I ain't gotta rewrite it  
Man are the elite, bro, we ain't gotta hide it

RIP jokes ('llow that, 'llow that)  
Man can't die out (never)  
I book that and fly out (somewhere hot)  
I let it boom bye bye out  
Tek man for chocolate chip  
You can't melt me or deep-fry me ('llow that, 'llow that)  
I beg a man don't doubt me  
Put lion bars on a bounty  
Can't let nuttin' slide, come on guys (come on)  
Tell a boy fuck your watch, take your time (come on)  
You man forced the wheel, on your bike (come on)  
You're bad in your ends, not in mine ('llow it)  
You're nice over there, not on grime (come on)  
Don't come over here, stay aside (yeah)  
Mad ting, over here  
Lyrics fly like birds in the sky

Till I take 'em away in a hearse  
Vacate cause you ain't got the nerve or the So many things I can state in a

Look, our line of work was lining work  
Now I'm in the game doing grime with nerds  
Said that I'm a diamond in the dirt  
But I don't know what a diamond's worth  
I was in the big ass riding bird  
Sitting with Skrigz, Hattie and Church  
Real life link up behind the bars  
Now I'm back in the lab like Heisenberg  
Still spitting that meth, turn up to a man's set  
Giving it as good as he gets  
Wasn't impressed, labels show interest  
Still don't wanna invest  
Anyone's guess, man said he wanted me dead  
I put the Ps to a man's chest, then I put him in check  
No, I don't indirect  
Something that I need to address? I'll be at your address
