

Who's got lyrics, who's got bars  
Who can stay up in the sky like stars  
Who keeps spitting those bars and don't run out  
We're the last of the old school stars  
I've got lyrics, I've got bars  
I can stay up in the sky like stars  
I keep spitting my bars and don't run out  
We're the last of the old school stars

Well I've been a top spitter from day you all know this  
Mic is my boat and I'm gonna row this  
Everybody knows I'm a war survivor  
Tell a boy he's sayin' he's because I'm a driver  
Flow so tight that they call me the mizor  
I've beaten a man like circled up fibres  
F these pricks they ain't even on my level here  
F the beef outside lets settle here  
Act like you've got tool well I've got more  
Act like you've got balls well I've got more  
MCs got hurt in the war  
But you can't ever say I didn't merk in a war  
Keep on spitting my bars because I'm real  
Every bars telling the world how i feel  
Don't just skip that dance in the track  
Yep okay, I'm enhancing the track

Who's got lyrics, who's got bars  
Who can stay up in the sky like stars  
Who keeps spitting those bars and don't run out  
We're the last of the old school stars  
I've got lyrics, I've got bars  
I can stay up in the sky like stars  
I keep spitting my bars and don't run out  
We're the last of the old school stars
