

## These Things

Will Downing

I send the sun in the morning, to wake you up everyday  
And if the sky is cloudy, I chase the clouds away  
It doesn't matter the season, I'll make it feel like spring  
Cause for your love I will do anything  
Is that enough, Is that enough  
I would do anything for you  
All my friends they call me crazy  
They don't understand the things that I do  
But I do it all for you  
And when the day turns to evening, I'll put the stars in the sky  
And just to make it complete girl I'll give u the moonlight  
I know its hard to imagine, can it all be true?  
I don't know but that's how much I love you  
Is that enough, Is that enough  
I would do anything for you  
All my friends they call me crazy  
They don't understand the things that I do  
But I do it all for you

As I look (as I look)  
Look in your eyes ( look in your eyes)  
I can clearly see you can't disguise, the way that your feeling  
for me  
Cause I feel it to, I know that this must be love  
You are one (you are one)  
Of a kind (One of a kind)  
Give the world to you if it were mine  
Cause I know that your there for me (your there for me)  
And I'm there for you (and I'm there for you)  
There is no limit to what I'll do for you  
These are the things that I do yea  
All my friends they call me crazy  
Cause they don't understand the things that I do  
But I do, I'll do it all for you  
Ohh these are the things  
These, these are the things, things that I'll do  
These, these are the things, things that I'll do for you
