

## A Day Without Speaking

Will Haven

concentrate to protect the self from failure  
disconnect, saddle up  
take lip from no fucker

all jokes aside  
you stand on thin ice perpetually

i won't sleep until it's dead and buried

and when you lock horns with me  
a traveling man  
i wish you all the best  
the best of... (me)

celebrate the lightening rod, the witness  
zombie bitches try to eat your soul all the way  
so drop down to your knees  
and recite these word with me...

"last call!"  
last call for promises and miracles
