

# Better Than You

Will Hoge

It's not the waking up without you in this big old bed  
It's not the way you said goodbye or what I wished I'd said  
It ain't the emptiness or the in-between  
Not the way you left me hanging in a memory  
No, it ain't waking up without you in this big old bed  
That kills me

It's the knowing it don't get better  
It's the knowing it don't get better  
It's the knowing it don't get better than you  
Than you

And I can make myself move on on a neon night  
I feel a little like myself until it's closing time  
But it's just temporary, no reality  
Every morning like a hammer coming back to me

Knowing it don't get better  
It's the knowing it don't get better  
It's the knowing it don't get better than you  
Now I'm putting it all together  
Burn a hole in my heart forever  
It's the knowing it don't get better than you

I burn a hole in my heart forever  
But now I'm putting it all together

It's the knowing it don't get better  
It's the knowing it don't get better  
It's the knowing it don't get better than you  
And now I'm putting it all together  
Burn a hole in my heart forever  
It's the knowing it don't get better than you  
Than you  
Than you

Don't get better than  
Don't get better than you
