

Goodbye Ain't Always Gone

Will Hoge

It's been six months since I smoked my last cigarette
I told myself this time I swear I won't go back
This morning cup of coffee it won't ever be the same
180 days nothing's changed

It's always there in the back of my mind
Loudest when I am all alone
Slow dance with the devil once last time
Say goodbye, o but goodbye ain't always gone

You packed your car; you closed the door and pulled away
I thought you called; I thought I'd see you out some place
Walking in to this old house won't ever be the same
This emptiness is calling out your name

It's always there in the back of my mind
Loudest when I am all alone
Slow dance with the devil once last time
Say goodbye, o but goodbye ain't always gone

Daylight comes I might get weak
Say to hell with everything
Strike a match and say come back to me

It's always there in the back of my mind
Loudest when I am all alone
Slow dance with the devil once last time
Say goodbye, o but goodbye ain't always gone
