

Hearts on Fire

Will Young

Hey maybe I'm lost
I'm overwhelmed
Out of this place
Like a boy lost in the rain
When I hear your name
And I see your face

I could stay all night
Throw my cares into the wind
Falling so hard this time
Don't know what else to do

Hearts, hearts are on fire
I'm on the wire
Falling for you

My love's been missing I'm told
Left out in the cold
You're warming up my heart

And the pain it disappears
Whenever you're near, wherever you are

Hearts, hearts are on fire
I'm on the wire
Falling for you
I know there's no straight line
It's different this time
I'm falling for you

Mmmm... Could this be what I'm wanting this time?

Hearts, Hearts are on fire
I'm on the wire
Falling for you
It's different this time
There's no straight line
I'm falling for you.
