## What's in Goodbye

What's in goodbye An empty world without a heart Saddens me each time I hear it Keeping us apart What's in goodbye

How cruel and so insensitive Maddens me each time I hear it How unkind it is, oh it is

Stuck in a cloud full of cold weather Somewhere in time Counting the tears as I remember Drowning in sunshine

What's in goodbye A place so vast and insincere saddens me each time I hear it Yeah, yeah, yeah, yeah

Ooh, ooh, ooh

La da da da da da da

Stuck in a cloud full of cold weather Somewhere in time Counting the tears as I remember Drowning in sunshine

Counting the tears The tears that I cried As you walked away As you said goodbye

Goodbye
