

Push And Shove

William Clark Green

Take my heart for I can't feel
I'll keep my eyes you'll steal my tears
Rumors running around and I'm left with the truth
But what's the use

Shut your mouth watch your back
Here it comes in a heart attack of love
It's never enough
Roll your eyes I don't care
Watch me leave in true despair I'm done
This push and shove

Look at all this mess we've made
We sure fooled ourselves in this charade
I will not be denied and I will not put you down
But this time around

Shut your mouth watch your back
Here it comes in a heart attack of love
It's never enough
Roll your eyes I don't care
Watch me leave in true despair I'm done
This push and shove
