

# You Know My Love

Willie Dixon

Oh time has passed and much has gone.  
The love in my heart has lingered on.  
Sometimes when I gets worried,  
I sneak away and cry  
You know my love,  
You know my love,  
You know my love has never died.

You gonna' try many things to pacify your mind,  
You'll even get married trying to have a goodtime.  
All you do you will never rest,  
Your gonna' fill your life with loneliness  
So when you're down and out, you'll need a home  
(OH yeah) Your gonna' need a friend and find a goal.

Sometimes when I gets worried I sneak away and cry  
You know my love,  
You know my love,  
You know my love has never died.
