

Warm Lovin' Christmastime

Wilson Phillips

Christmastime, my favorite time
To prove that it's true when I say that I need you
By my side, we're close tonight
We'll hold each other tight and be warm by the fireside
It's you and me
And a Warm, Lovin' Christmastime

The season's right, this is the night
For silver bells, holly and mistletoe
We'll I'll be happy just to show you how
This wintertime weather's got me feeling sentimental now
It's you and me
And a Warm, Lovin' Christmastime

Winter night and nowhere to go
We'll write our names in the fallen snow
Let's hold this feeling and never let it go

Winter night and nowhere to go
We'll write our names in the fallen snow
Let's hold this feeling and never let it go, oh

Christmastime, my favorite time
To prove that it's true when I say that I need you
By my side, we're close tonight
We'll hold each other tight
And have a warm and lovin' Christmastime

We'll hold each other tight
And have a warm and lovin' Christmastime
A warm and lovin' Christmastime

We'll hold each other tight
And have a warm and lovin' Christmastime
We'll hold each other tight
And have a warm and lovin' Christmas

A warm and lovin' Christmastime

We'll hold each other tight
And have a warm and lovin' Christmastime
