

# I Found A Love, Part I

Wilson Pickett

You know I've always felt  
That everybody needs somebody to love  
Do you know late at night when them rain drops  
Begin to fall down from your windowsill  
That's the time you need someone to hold real tight  
Someone to whisper sweet things in your ear  
Someone to tell you "Honey, everything's alright"

Yeah yeah  
Yeah yeah  
Yeah, oh yeah  
I found a love, oh yes I did  
I found a love  
I found a love  
And I need, oh yes I did children  
One more thing

I found the kiss, oh yeah  
And I want to tell everybody I can't resist  
I know, I found a love  
Oh I need it baby, oh yeah  
And I want to call it one time

Yeah yeah  
Yeah yeah  
Yeah, oh yeah
