

I've Come a Long Way

Wilson Pickett

I've come a long long long long way, oh yes I did
Since I found a love, since I found a love
But wait a minute, there's one more thing
It was so hard hard, yeah, oh yeah
But I've come a long, such a long long way
Let me tell y'all by the stars above
Let me say that one more time, by the stars above

I used to look here and there...here, there, everywhere
One day that woman walked into my life, oh yeah
She said "Don't worry baby, I'll make everything all
right"
She went on and she smoothed out all the rough roads, uh
huh
With a-lots of lovin' and secure, oh yes she did
And she gave me somethin' to live for
I can tell the world, yeah yeah (by the stars above)

I've come a long (long) long way (long way)
Ah sometime I'm gonna cry tears of water
That came runnin' out, oh yeah
