

# Immortality

Windir

We are not immortal  
We must find the key  
The key to your heaven  
This key will bring us immortality

We are not immortal  
Find the key to your heavens  
This key will bring us  
Immortality

We have always knew  
That you guided us in fight  
You have helped us through  
Life as the knife  
We have always knew  
You guided us through fight  
You have helped us through  
Life as the knife

When we are worried  
Our souls will go to heaven  
There we will feel our immortality

When we are worried  
Our souls will go to heaven  
There we will feel our immortality
