

Storm in Me

Winger

Mayday, ragin' storm inside of me
Make way, tidal wave of crazy

I never meant to break your dream
I never meant to make you scream

Storm in me is gonna blow this down
Fire in me is gonna burn it to the ground
Beast in me is gonna wipe this out
Devil in me is gonna load another round

Black out, blue flood affliction
Break down, ricochet addiction

I never meant to make you cry
You are my deepest love inside

Storm in me is gonna blow this down
Fire in me is gonna burn it to the ground
Beast in me is gonna wipe this out
Devil in me is gonna load another round

I can't control the reason why

I wish I never felt this way
Rewind to wash it all away

Storm in me is gonna blow this down
Fire in me is gonna burn it to the ground
Beast in me is gonna wipe this out
Devil in me is gonna load another round
