

# Under One Condition

Winger

She's looking in the eye  
Of a mind made up  
That the pain will last forever

And he's headed for a heart  
All closed up, will you ever open up?  
She said, "Never"

What is the secret  
To keeping your head and your promises?

Oh, "I'll mend your broken heart", she said  
Under one condition  
If I lift you up, you'll never let me down  
Darling under one condition

She stares at the sky, wondering why the night  
Isn't telling her, believe in him  
If he could only read to her the pages of his heart  
She could see they feel the same

Learning the secret  
To keeping their heads and their promises

Oh, "I'll mend your broken heart", he said  
Under one condition  
If I let you in, you'll never push me out  
Darling under one condition  
And this is my one, this is my one condition

He's getting closer and she's getting closer  
Just one more question, one more answer  
It was all they ever wanted

Oh, "I'll mend your broken heart", she said  
Under one condition  
If I lift you up, you'll never let me down  
Darling under one condition

Hear me say, this is my one condition  
That if I let you in, you'll never push me out  
Darling under one, darling under one condition  
I'll mend your broken heart, but darling under one condition  
If I lift you up, you'll never, don't let me down
