

Not Without a Fight

Winter's Verge

Here i hide in purpose
With aim to bring you down
For i have planned to bury you
6 feet into the ground
Outside these walls you hunt me
But this will be no more
As i become the hunter until the
Day I'm gone

I watched you burn our houses
I saw you kill my friends
I cried as you were torturing our
Women to their end

Take my life, take it all
But you'll never take my soul
No more pain, it's my right
I will not go down without a fight

One by one I crush you
From mists I have appeared
I have become a nightmare
Your greatest deadly fear
You thought that we are weaker
Your strength in numbers lay
Our strength i not a number;
Our hearts show us the way

You set a bounty on me
"The most wanted man alive"
You'd better raise that number or you'll
Never get the prize

Take my life, take it all
But you'll never take my soul
No more pain, it's my right
I will not go down without a fight

For months now I have fought you
I've killed a thousand men
But betrayal has deceived me
A traitor from my own land
You finally had found me
"Surrender" you said then
"Why don't you come and take me
Or are you still afraid?"

Take my life, take it all
But you'll never take my soul
No more pain, it's my right
I will not go down without a fight
