## Sore

## Wintersleep

you've been awake all morning wanting to tell me something i know you are scared

you can tell me everything, i wouldnt care you know that i'll always be there right by your side no matter what no matter what consciously endure every ache and sore

you can tell me everything, i wouldnt care you know that i'll always be there right by your side no matter what no matter what they say

you can tell me everything, i wouldnt care you know that i'll always be there right by your side no matter what no matter what

consciously endure every ache and sore consciously endure every ache of yours
