Wait it - need it - take it - have it - Dive in - deeper - drain me 'till i'm only a shell

Wait it - need it - take it - have it - Bite in - deeper - bleed me 'till i'm only a shell

Your teeth rip a piece of my heart And then you bleed it dry The sun goes down now i'm stranded

Want it - dig it - take it - have it - Pluge in - deeper - drain me 'till i'm only a shell

You take this understanding The you sip it dry 'Till the sun comes up i'm stranded
