

Sinking as a Stone

Wipers

What did I have at stake why did I have to wake She said you are a soulmate

Why did this raft go stray All I know is she said to me She said you are a soulmate But you're never gonna settle down

I wish this craft could swim All I ever get is the same old thing She said you are a soulmate

Living as a stowaway Sinking as a stone Feeling that you've thrown away (X 2)
