

## Wind the Clock Slowly

Wipers

Can't you see can't you hear The sound of people running Whilst  
you stand Well I'm in in bliss waiting here For you lately 'cu  
s it's Stopped me fast

You only last a second You're allowed to take it Will it ever s  
low down

Well I can't help but wonder How you - blended in All I want is  
to paint Myself around you 'till we suspend

We only last a second We might as well take it Will it ever slo  
w down

I've only been waiting just for so long Just to get to here You  
know time creates all the fear Around you so Just don't stand  
there We only last a second Allowed to save it Will it ever slo  
w down
