

Wake Up My Life

Wisdom

Frozen in a lonely night
When the moon is shining bright
I remember every hurt, oh how can I forget?
I recall my memories
And I find just pain and tears
Maybe I was born for sorrow in the arms of death?

Wake up my life
Please don't let me die
Give me a reason to believe and stay alive
Wake up my soul
Please don't let me go
Help me to find the fields of gold

How to tell you what I feel?
I can't overcome my fear
Many questions wander in my head when I am blue
Will you save me from myself,
Show the way out of this hell?
Time is running out, and I don't know what I can do

Wake up my life
Please don't let me die
Give me a reason to believe and stay alive
Wake up my soul
Please don't let me go
Help me to find the fields of gold

Wake up my life
Please don't let me die
Give me a reason to believe and stay alive
Wake up my soul
Please don't let me go
Help me to find the fields of gold

Day by day
Waiting for my fate
Save me, I hope you won't be late
