

## Big Issues

Wishbone Ash

Slept like the dead last night  
Pavement for my head last night  
Voices in my head  
I'm hungry for my bread

Big issues  
Big issues

Took my grievance to the wire today  
Politician was a liar today  
Gonna get what I desire  
Think I'll start a fire

Big issues  
Big issues

Curbstone for my head  
I'm hungry for my bread

Big issues  
Big issues  
Big issues  
Big issues

Brother, let's get through this  
Well we'll live, laugh, and cry  
You gotta get right down to it  
You can't just lay down and let hope die

We are gonna do our best here  
To be all that we can  
But let's make one thing clear now  
You gotta get real and find a new plan
