

# Can't Go It Alone

Wishbone Ash

I know you suffer, but I don't want to see you  
Run and hide away this time  
Reignite the light within your heart  
Won't let it be denied no more

You can't go it alone, on your own  
It takes strength to carry on  
When it cuts to the bone, I will come  
And I'll carry you away  
You can't go it alone, on your own  
It takes two to pull on a wishbone  
And make your dreams come true  
And the rest will follow through

Reconcile yourself, exorcise the demons  
Within your heart this time  
Turn around and you will find me waiting  
When all around has gone

You can't go it alone, on your own  
It takes strength to carry on  
When it cuts to the bone, I will come  
And I'll carry you away  
You can't go it alone, on your own  
It takes two to pull on a wishbone  
And make your dreams come true  
And the rest will follow through

You can't go it alone, on your own  
It takes strength to carry on  
When it cuts to the bone, I will come  
And I'll carry you away  
You can't go it alone, on your own  
It takes two to pull on a wishbone  
And make your dreams come true  
And the rest will follow through
