

## Difference in Time

Wishbone Ash

You call this together;  
can't you feel the time collide?  
I'm wondering whether  
I can keep my thoughts inside.  
Prime time, your time,  
I try so hard just to stay online.  
Hard time, my time,  
get the feeling that I'm left behind.

You're a step ahead when I'm right behind you.  
Just a difference in time.  
I look ahead when you're looking back.  
It's just the difference in time; our time.

Did you send this SOS?  
Is this goodbye or a cry for help?  
Seem like a stranger, are you still the same?  
I'm wondering what you think I feel.  
Love hurts, love scars.  
Felt so good now it feels so bad.  
This time, our time.  
Can we mend what we once had?

You're a step ahead when I'm right behind you.  
Just a difference in time.  
I look ahead when you're looking back.  
It's just the difference in time; our time.

Don't want to lose ya;  
Is there a future?

You're a step ahead when I'm right behind you.  
Just a difference in time.  
I look ahead when you're looking back.  
It's just the difference in time; our time
