Right or Wrong

Wishbone Ash

Like to have you 'round With all the lies that you make The things or darkness and you Some people say, have just a taste Right or wrong, you might get burned What you gain is what you learn

Got one too many women Don't know quite which way to go They're all gettin' so expensive When they walk by themselves Right or wrong, don't regret What you went for is what you get

No point in bitter tears When someone else has cut you down 'Cause there's a time for leavin' And there's a time for stickin' around, hey Right or wrong, you've got to live So what you collect is what you give
