

## **Ships in the Sky**

**Wishbone Ash**

Morning morning give me something  
Open my eyes to a new way  
Wailing sailing wind of wonder  
Carry me cross your dividing line

Ships in the sky, I've seen 'em pass by  
Shining bright in the night  
Don't look behind you

Do I imagine these footsteps behind me  
Can't see with this smog in my face  
Tracy trace your hands they are shaking  
Tell me what you have seen

Ships in the sky, I've seen 'em pass by  
Shining bright in the night  
Don't look behind you
