## The Day I Found Your Love

Wishbone Ash

When I was a stranger to you in the night And the feeling tells you, out of sympathy, To open up your wings, turn your head to the sky, Take off like a bird, let your heart be free.

I found deep feeling devotion The day that I found your love.

I can see above the diamond-studded sky, Hear the sound of night life passing by, Scent the early morning with every breath of air, Taste the secret potion that we both share.

I found deep feeling devotion The day I found your love.
