

# The Way Of The World

Wishbone Ash

Keep the wheels turning  
On this lonely road  
A slave of mother nature  
I've got to get back home  
Such a grey coloured nightmare  
Of what used to be so good  
Dreams and desires  
It's the way - the way of the world

See a light in the distance  
Going to show me the way  
Another road to be taken

Another stage to be on  
Carry me, carry me  
A little closer home  
Dreams and desires  
It's the way - the way of the world

Stormy weather, take me to  
Back where I belong  
At the airport, on the plane  
Now I'm going home  
Takes so long, flying high  
I just love the way of the world
