

## Way Down South

Wishbone Ash

The funds are low and the debts are high  
I need to smile but I have to sigh  
So just one kiss before I go  
I'll find a place and I'll let you know

I think I see a future way down south  
I'll find some time for thinking  
They say that Life is slower way down south  
Where summer spends the winter  
way down south

I'm leaving town and I won't be back  
Making moves and I'm making tracks  
I don't know quite where I'll end up  
Somewhere warm with any luck

I think I see a future way down south  
I'll find some time for thinking  
They say that Life is slower way down south  
Where summer spends the winter  
way down south

I think I see a future way down south  
I'll find some time for thinking  
They say that Life is slower way down south  
Where summer spends the winter  
way down south  
way down south
