

Lady Winter

Witchcraft

Lovely woman, beautiful name
Lady Winter I'll take you again
Her voice so soft, caress my body
Her voice so strong, sometimes come out wrong

This feelin itchin' from top to toe
I'd love to kiss you, you must not go
The door is open you gave me the key
I don't even know you but don't leave me

Frustration has its evil grip on me
Evil women just can't leave me be
In Satan's clutch you'll forever stay
If you don't say what you have to say

I make a wish
I wish to be kissed
Tempting eyes
Deadly lips
On my knees I fall to pray
Warmth within come to stay
