

Die Inside

Within the Ruins

All my life I've been alone
You've had better things to do
Do you know who the fuck I am
All my life I've been alone

Say goodbye
To the best thing you ever had
I told you, you were my life
I told you, you are life

You've only gotten in the way of what I hate to do
Must I break your face
To make it crystal clear

Let me
Show you
What you [? percieve]
What you've become
So you can die inside

Oh, won't you ever look at me
Ever speak to me
You are worthless to me
You are dead to me

If I could
Then I would
Bring you deep
Within my hell
For what you've done to me

Say goodbye
Say goodbye
Say goodbye to the best thing you ever had

I told you, you were my life
I told you, you are life
Must I break your face
To make it crystal clear

Let me show you
What you [? percieve]
What you've become
So you can die inside
Die inside

I hope you see
What you've become
So you can die
Inside
Inside
