

Frozen Blood

Wizard

What's going on with you?
Where is life
Where can I find your fire?
Search your mind

I cannot understand
The way you go
Same blood in our veins
Frozen inside

Frozen inside
Lost and found
Frozen inside
Together - alone
Frozen inside
Lost and found
Frozen inside
Beginning - the end

The time is rapidly changing
Everyone fights his battle
Rocks will always be there
But friendship should never end

Now we are in the dark
And don't know why
No words, only silence
The right way?

The candle light is dead
The fume clears
Battle isn't lost
we go on
