

You must know that, it's the same fight everyday  
You must live, selling your youth for dough

The place's not lovely yet  
The world says it is  
Stupid VIP's  
Try to meddle with the rules

Look! A bird's flying in the sky  
So free and so proud  
Try to bear it like it does  
To pass over that

The dirty mob shows off its stupidity  
Without booze you can't do anything

Though it's not lovely yet  
Don't stay aloof  
Until the mighty fools  
Try to meddle with the rules

Look! A bird's flying in the sky  
So free and so proud  
Try to bear it like it does  
To pass over that

Look! A bird's flying in the sky  
So free and so proud  
Try to bear it like it does  
To pass over that

Live and survive  
Live and survive
