Wolfnacht

The hammer of Thor surpass the weak

No future for democracy, no future for this shit  
The only law is war and the time of the sweep  
Enemies hide when we shout white power  
The wrath of the overman is unleashed  
Behold the mass of the pathetic cowards  
Soon they'll taste the aryan soldiers fist

With iron fist and heart of steel  
Fighting for the triumph of the wheel  
Our solid territories are taken back  
And our jigsaw bathed with the subhuman blood  
The zionist conspiracy conceals the truth  
Mongloid subcultures influences the youth  
The powers of the government or maybe it's the ZOG  
But with the spear of Wotan  
We'll murder them till dawn

As brothers in my fatherland together in the fight  
Loyal to the holy war, I'm proud to be white  
In eternal brotherhood with power so great  
Until the final victory no jewman can escape
