Wolfnacht

Our ideals was a present
to stand in fire and iron
we defended as the dressed as the aryanische (?)
For whose who died for thy (?)

Wotanswolke...erwache

Jews of steel must skip alive (?)
The anger tides of our strife
The symbols of the aryan man
Must be protected from the jewish rats

Wotanswolk... erwache

And awake every wild conscious man to battle
Let their war spirits fly
To works fineought of our ancestors (?)
And together we shall celebrate our victory

Wotanswolk awake, and fight with loyalty
for Adolf Hitler and for his arrival (?)
and fear of the enemies (?)

Let the enemies of our ideals
Drown in their own blood
For the future of our aryan idea (?)
And for the glory of Wotan
