

Feel The Same

Worlds Apart

I wrote in a letter
What I couldn't say
I hope you're better
I never meant to treat you that way
I can't remember
More like I try to forget
How much I miss you baby
But now I feel so alone

You know it hurt me so bad
I know that you understand
Oh baby it's okay
I hope that you feel the same

You're all I know - can't let you go
Just give me one more chance
I'll never leave you again
You're all I need
So please believe that baby it's okay
I hope that you feel the same

I think about it
When we were alone
And when we said goodbye
I didn't want you to go
(So let me) let me hold you all night long
I keep on wondering why
Why I was hurting inside

You know I'll do all I can
I know that you understand
Oh baby it's okay
I hope that you feel the same

You're all I know - can't let you go
Just give me one more chance
I'll never leave you again
You're all I need
So please believe that baby it's okay
I hope that you feel the same

And baby you know you're not to blame
And maybe this time I can explain
So please believe that I won't leave
I'll give you all that I can give

You're all I know - can't let you go
Just give me one more chance
I'll never leave you again
You're all I need
So please believe that baby it's okay
I hope that you feel the same
