

Forever Girl

Worlds Apart

I know you're holding out on me
Just let a ray of light run free
And give me the one chance, just to make you see

Chorus :

I will always be around
And I'll never let you down
And I swear that you'll be my forever girl

I know that you've been hurt before
Afraid to risk your heart once more
But give me one chance, just to make you see

[Chorus] x 2

I promise you love deeper than the ocean
I'd do almost anything
To make you believe that I will be here for good, for good

[Chorus] x 2

I will always be around
And I swear that you'll be my forever girl
