

Let The World Stand Still

Worlds Apart

Silver rain, wash my pain
Way down the stream again
Autumn leaves, lover leaves
Breaking my heart again
Please don't let us end this way now
I have the love to make you stay now

Let the world stand still tomorrow
Fade away our yesterdays
Let the world stand still tomorrow
So we can live for just today

Morning dew, I think of you
Rain in my heart again
I know it's true
My love for you
Will tear me apart again
I know our love is stronger
Maybe we can work it out
I can't take this any longer
Just give me one more chance

I'm begging you baby
Stay by me everyday
We've got something so special
Don't throw it all away
