

Falling Down

Wynardtage

I'm falling down
From leaving you
The harder pain
I can't get through
So far your eyes
No light at all
The empty hours
Support my fall

I'm left alone
Just lost the line
It's all so quiet
Grey and unkind
I got a fear
A naked part
I face the cold
The smashing heart

CHORUS:
I suffer life
In this cold place
It's cruel outside
Slow down the pace
There is no pride
No further sense
It stops the hope
Breaks my last chance

I lost alone
In this grey world
With your pictures in my hand
Falling
Still falling
Deeper
In depressions..

You pushed me down
Into saddest mood
The harder pain
I can't get through
So far your voice
No sound at all
The empty hours support my fall

I'm left alone
Just lost my mind
It's all so quiet
Grey and unkind
I got a fear
A naked part
I face the truth
The smashing heart

CHORUS:
I suffer life

In this cold place
It's cruel outside
Slow down the pace
There is no pride
No further sense
It stops the hope
Breaks my last chance

I lost alone
In this grey world
With your pictures in my hand
Falling
Still falling
Deeper
In depressions..
