

Bring Him Safely Home to Me

Wynette Tammy

There goes the alarm, well, it's time to get up
Time to get the kids all dressed up
Time to get them safely on their way
Then up the stairs I will gently wake him
His morning kiss I'll take him
And whisper a greatest time this day

Help him guide him, take his hand and walk beside him
And bring him safely home to me

Good morning, Lord well, I know You're busy
But this prayer will be so easy
Thanks for the night You made him mine
And Lord, though each day I kiss him
Right now I sure do miss him
So let me ask You one more time

Help him guide him, take his hand and walk beside him
And bring him safely home to me
And bring him safely home to me
