

I Did My Best (To Fall in Love Last Night)

Wynette Tammy

His arms were strong and warm and wrapped around me
Sweet tender love a lonely girl's delight
He gave me all the things that I've been needing
And I did my best to fall in love last night

I thought if he would hold me close and love me
He'd help to drive your mem'ry from my mind
But each kiss just made that old flame burn much brighter
But I did my best to fall in love last night

I should have known it wouldn't be so easy
To fall in love with you still on my mind
I'm gettin' used to never gettin' over you
But I did my best to fall in love last night

I'm gettin' used to never gettin' over you
But I did my best to fall in love last night
