

I Don't Think I See Me in Your Eyes Anymore

Wynette Tammy

I felt like talkin' tonight
But you wouldn't hear a word I had to say
I felt like touchin' you tonight
But you just turned the other way

You're sound asleep I'm wide awake
The night's so quiet I can hear my heart break
Wish we could be like we were before
But I don't think I see me in your eyes anymore

I've never seen you look more in love
It makes me wonder who you're thinkin' of
Oh I hope that I'm wrong I've been so wrong before
But I don't think I see me in your eyes anymore

I know I've changed some
But you've picked up some changes on your own
Wish we could be like we were before
But I don't think I see me in your eyes anymore
I don't think I see me in your eyes anymore
