

I'm Going on with Everything Gone

Wynette Tammy

The sun comes up to bring another lonely day
And I get up and force me on my way
Now I'm so low that I don't know what up is all about
But I'm goin' on with everything gone that I said I couldn't live without

It's so sad the clocks have all stopped tickin'
To make me think even time ain't on my side
My friends all say I'll make it this I really doubt
Still I'm goin' on with everything gone that I said I couldn't live without

I said I couldn't face it knowin' that your good love was gone
That I'd just give up and refuse to go on
Now if I get through the day tomorrow I'll get up and out
But today I'm goin' on with everything gone that I said I couldn't live without
Yes I'm goin' on with everything gone that I said I couldn't live without
