

I'm Not a has Been (I Just Never Was)

Wynette Tammy

Now that it's finally over now that my eyes are all dry
There's no dreams for me to keep dreaming and no tear left in me to cry
I'm not the first one who'd loved you and lost
But I'm not your has been I just never was

You didn't leave me this morning cause you never lived here with me
You kept your body at my house but your love has always been free
So I'm not like the others I'm different because
I'm not your has been I just never was

I'm not your has been and I never have been
I've just never existed in your world
So I may feel rejected and I may feel lost
But I'm not your has been I just never was
Never was
