

# I Never Once Stopped Loving You

**Wynette Tammy**

The nights were dark and long, I spent a million all alone  
But I never once stopped loving you  
My world was cold and still, my dreams lay unfulfilled  
But I never once stopped loving you.

I never once stopped believing  
We'd love again the way we used to do  
And today when you came back my patience was rewarded  
For I never once stopped loving you.

I could have loved another but I chose the way and suffered  
For I never once stopped loving you  
I prayed to God to guide you till I could be beside you  
And I never once stopped loving you.

I never once stopped believing  
We'd love again the way we used to do  
And today when you came back my patience was rewarded  
For I never once stopped loving you...
