

If We Never Love Again

Wynette Tammy

We've come to the end of love's journey
We've opened and closed every door
Goodbye's not the word we're used to sayin'
But stayin' not worth stayin' for

If we never love again it's been heaven
Just to hold you close to me when you were mine
If we never love again it's been heaven
I'd give the world to go through to heaven one more time

You always can tell when love's leavin'
By the pieces of coldness you'll know
For you can't keep a fire when there's just ashes
And wishin' won't make it so

If we never love again it's been heaven
Just to hold you close to me when you were mine
If we never love again it's been heaven
I'd give the world to go through to heaven one more time
