

## (Merry Christmas) We Must Be Having One

Wynette Tammy

Silent Night has never sounded any sweeter  
And Jingle Bells ring softly in the night  
And it's the season for me to be happy  
'Cause this Christmas, you're here to hold me tight

The snow is falling just outside my window  
And the children are having so much fun  
If this is what you call a merry Christmas  
Well darling, we must be having one

This is the way, I always dreamed it could be  
When the kids are seeing, it'll be time for you and me  
The presents have been wrapped and every stocking hung  
So merry Christmas, we must be having one  
So merry Christmas, we must be having one
