

Only the Strong Survive

Wynette Tammy

Never seen anything as strange as love
It sneak off on the blind side and give you a little shove
When you turn and look it in the eye
As quickly as it says hello it can also say goodbye

And it's easy to fall in to
It's not easy to hold on to
Love's easy born but hard to keep alive
And only the strong survive

Learnin' how to give as well as take
Sometimes it's hard to live without love is something you make
The brightest sun can't find it when it's gone
The writer's words can't say again when it's really wrong

And it's easy to fall in to
It's not easy to hold on to
Love's easy born but hard to keep alive
And only the strong survive

Fall in to (it's not easy)
Hold on to
Love's easy born but hard to keep alive
And only the strong survive
